

LETTER TO CRIME AND PROBLEM ASSISTANCE UNIT (CAPA) OF THE TTPS ON HENRY STREET

Donald Berment <donaldberment@gmail.com>

Fri, Feb 15, 2019 at 7:12 AM

To: capauser@ttps.gov.tt

My name is Donald Berment and I am a Council Member of NCPP Community Crime Prevention Council in Diego Martin (CCPC). At the last AGM of NCPP, 2018 on Abercromby Street, CAPA made a very comprehensive presentation of the Crime Statistics in Trinidad and Tobago and it was said that they will be shared, as they were well researched, showing clearly the Electoral Districts, where the NCPP has to pay attention to. My work as a Specialist in the Housing and Settlement Development Sector and as the Secretary and a Director of the nonprofit company [Men Against Violence Against Women \(MAVAW\)](#), notes that such data is very important for my records, in addition to the work presently being done with the National Crime Prevention Programme (NCPP), in the third level, at the CCPC (The Community Crime Prevention Council of Diego Martin).

I visited your office recently and made a personal request for that information and it was promised to be emailed to me.

Subsequently a call from your office asked me to get the Liaison Officer from NCPP to contact your office. If any one of the 3 hats now being worn by me entitles me as a citizen, to have your data, I respectfully request that you please supply it at your earliest convenience, as other channels take a much longer time, at a greater cost.

Attached is my short introduction and the following link has over 70 uploads of my work efforts to achieve sustainable development in Trinidad and Tobago, over 4 decades plus, <https://archive.org/details/@mavawsec>.

This NCPP is the first apparent genuine attempt to get all the citizens involved in crime reduction and prevention, over the last 56 years.

However, there is a great need to share the workload of NCPP at Field Level and Board Level with independent participants, inclusive of financial autonomy, all of whom will swear to be devoid of Party Politics for the duration of their Contracts, suggested of 5 year duration and the Ministry is working on a suitable model, with UWI and UTT, as our EBC has the evidence based data of how many persons participate in efforts which are solely partisan in perception.

When that is accomplished, we will have a Programme that is truly National in Focus, Truly Genuine in Intent, holding tremendous potential for Nation Building Sustainable Development here and a Model for the world to copy, i.e. Best Practice Democracy, Democracy from the Ground/Roots. Up, sentiments expressed by many over many years.

Your kind considerations is eagerly anticipated and keep up the great work your Unit is doing.

Donald D. Berment,
Knowledge Is Power
Sharing It Is Love.
